PROFESSIONAL SUMMARY

Results-oriented Oracle APEX and PL/SQL Developer with **4+ years of professional experience** in Oracle database development, enterprise application customization, reporting, and technical support.

Proficient in developing Oracle APEX applications, writing complex SQL queries, PL/SQL procedures, functions, triggers, and packages. Experienced in creating interactive dashboards, forms, reports, and implementing database-driven business logic.

Hands-on experience with **Oracle APEX, Oracle PL/SQL, JasperReports, Oracle BI Publisher, REST APIs, and Oracle Database**, including application debugging, query optimization, data validation, and end-to-end functional testing.

TECHNICAL SKILLS

- **Oracle Technologies:** Oracle APEX, PL/SQL, SQL, Oracle Database 19c/12c/11g, Oracle BI Publisher
- **Database Development:** Stored Procedures, Functions, Packages, Triggers, Views, Materialized Views, Joins, Subqueries, Query Optimization
- **Reporting Tools:** JasperReports, Oracle BI Publisher, APEX Interactive Reports, Interactive Grids, Charts, KPI Dashboards
- **Web Technologies:** HTML5, CSS3, JavaScript, React.js, Core Java, XML
- **API Integration:** REST APIs, JSON, Postman
- **Development Tools:** Oracle SQL Developer, Git, Jira, Unix Shell Scripting
- **Other Skills:** Database Design, Data Import/Export, Debugging, UAT, Technical Documentation, Performance Tuning

PROFESSIONAL EXPERIENCE

TI INFOTECH PVT. LTD.

Oracle APEX & PL/SQL Developer | January 2025 – Present

Project: Travel Assist / Travel Aitkens – Travel Management ERP

- Developing and maintaining enterprise-level Oracle APEX applications for travel and tourism management.
- Designing and customizing application pages, interactive reports, interactive grids, forms, and dashboards.
- Writing complex SQL queries and PL/SQL procedures, functions, triggers, and packages to implement business logic.
- Working on modules including tour packages, hotel bookings, transportation, suppliers, customer invoicing, costing, and profitability.
- Developing and customizing **JasperReports**, including SQL datasets, report parameters, report layouts, formatting, and data presentation.
- Working with Oracle BI Publisher for enterprise reporting requirements.
- Implementing application validations, dynamic actions, and user-friendly interfaces using JavaScript, HTML, and CSS.
- Investigating and resolving dashboard issues involving SQL queries, fiscal-year configurations, joins, and data availability.
- Supporting REST API integration, JSON-based data exchange, and application-level troubleshooting.

- Collaborating with functional consultants, business analysts, and end-users to understand requirements and deliver technical solutions.
- Performing unit testing, UAT support, debugging, defect resolution, and application enhancements.
- Ensuring database integrity, application performance, and data accuracy.

COGNIZANT TECHNOLOGY SOLUTIONS

Oracle APEX & PL/SQL Developer | August 2022 – January 2025

Project 1: Hotel Management System – Oracle APEX

- Developed and customized Oracle APEX application screens for a Hotel Management System.
- Designed database-driven forms, interactive reports, dashboards, and application navigation.
- Developed PL/SQL procedures, functions, triggers, and packages to implement application business logic.
- Created and optimized complex SQL queries for data retrieval, validation, and reporting.
- Implemented page validations, dynamic actions, and interactive user interfaces using JavaScript, HTML, and CSS.
- Worked on database design, application enhancements, and performance optimization.
- Participated in unit testing, UAT, debugging, and defect resolution.
- Collaborated with stakeholders to gather requirements and deliver technical solutions.
- Prepared technical documentation and supported ongoing application maintenance.

Project 2: McDonald's Corporation – MCD/HR-ODS

- Developed PL/SQL procedures, functions, triggers, and packages for database processing.
- Wrote complex SQL queries for source-to-data-warehouse comparison and reconciliation.
- Designed and implemented database views and materialized views.
- Worked on data validation, transformation, and reporting requirements.
- Identified and resolved SQL performance issues through query optimization.
- Collaborated with clients and technical teams for issue resolution and application support.
- Supported testing, defect fixing, and continuous process improvements.

ADDITIONAL PROJECT

BabyNest – Baby Care E-Commerce Application

Technologies: Oracle APEX, PL/SQL, SQL, HTML, CSS, JavaScript

- Developed an Oracle APEX-based baby care product storefront.
- Designed product browsing interfaces and customer account access pages.
- Created database-driven product display and management functionality.
- Implemented SQL queries and PL/SQL logic for application operations.
- Developed a PDF-to-JSON utility for converting document information into structured data.
- Designed responsive and user-friendly application interfaces.

PROFESSIONAL HIGHLIGHTS

- 3+ years of hands-on experience in Oracle APEX and PL/SQL development.
- Successfully delivered multiple enterprise applications across Travel, Hospitality, HR, and E-Commerce domains.
- Developed and maintained complex JasperReports used for operational and management reporting.
- Strong experience in designing database objects including Procedures, Functions, Packages, Triggers, Views, and Materialized Views.
- Expertise in query optimization and database performance improvement.
- Experience working directly with business users, clients, and functional consultants.

- Excellent exposure to Oracle APEX application development lifecycle, deployment, testing, and production support.

EDUCATION

Master of Computer Applications (MCA) – 2022
Graphic Era Hill University, Haldwani, Uttarakhand

CERTIFICATIONS

- Microsoft Azure Fundamentals (AZ-900)
- PL/SQL Course – Udemy

CORE COMPETENCIES

Oracle APEX Application Development | SQL & PL/SQL Programming | JasperReports Development | Oracle Database Management | Interactive Dashboard Development | REST API Integration | Database Query Optimization | Application Debugging | Business Requirement Analysis | Unit Testing & UAT | Technical Documentation
